Geur en reukvermogen zijn erg belangrijk tijdens de eerste maanden van het leven van je baby. Baby's beginnen hun reukgeheugen van pasgeborenen te ontwikkelen, essentieel om een prettige band met hun omgeving te creëren. De geurlijn van Suavinex, met een laag alcoholgehalte, is ontworpen voor die zoete momenten. De nieuwe Baby Cologne 'Memories', brengt je terug naar je kindertijd, sluit je ogen en laat je meeslepen door een werveling van jasmijn, oranjebloesem, wit ceder & kasjmierhout, muskus en amber. Het wordt geleverd in een spuitfles voor een comfortabelere en veiligere dosering. Geschikt
